## COMING TO AMERICA ▶

The **Monostat RS Monopod** series is more portable than a tripod but still strong enough to support your camera in difficult terrain. The single-stem design allows quick setup for fast shooting, and the unique Swivel Toe Stabilizer design of the RS monopods ensures a steady shot, even at angles of up to 60 degrees. The frame, available in aluminum or carbon fiber, is sturdy while still maintaining a light travel weight, and a reversible 3/8 to 1/4 camera mount will fit most camera types. Size, weight and price vary by model. **Contact:** Accurate Sales, Inc., (718) 302-7063, [www.monostat.us](http://www.monostat.us).
